

DOUBLES DRILLS

204) Dice Doubles:

Level: 2.5 & Higher

Fun variation on how to play doubles.

Players play regular doubles with each player serving twice.

The game is played up to 20 points

Before each point starts, the coach rolls a dice and that sets the value of the **next** doubles point.

So, if the dice comes up as a four, the next point is worth four to whatever team wins it.

This continues until a team reaches 20 points.

This has been a great way for us to add pressure and “luck” to doubles play and our students love it.
