Outlook

Set up your account

You can use Outlook as soon as you enter your account info. On the ribbon, select **File > Info** then the **Add Account** button. Sign in with your preferred email address, or use an account provided by your company or school.

Attach files without searching

Need to attach a picture or a document? Outlook saves you time by keeping a list of your recently used files. Select the **Attach File** button while composing a new message or meeting invitation, and then select the file you want to attach.

Set up an Outlook group

If you're running Outlook as part of an Office 365 subscription, you can use **Groups** instead of distribution lists to more effectively communicate and collaborate with members of a team or an organization.

To create a new group in Outlook, on the ribbon, select **Home**, and then select **New Email > Group**.

If you don't see this as an option on this menu, contact the administrator of your Microsoft Office 365 subscription for more information.

From the Inbox of any of your Groups, you and the other members can start or join a conversation, create or confirm team events, see a list of members, and get notifications about interactions on any of your shared posts.

To join an existing group, start by searching for its name. On the ribbon, select **Home**, enter a keyword or phrase into the **Search People** box, and then select the group you want to join.

Outlook

Outlook is more than just email

Easily switch between Mail, Calendar, People, and more.

Easy to use Calendar tools and commands
In Calendar view, the ribbon displays everything you need to manage every day, week, month, and year.

Switch your point of view
